

myMincome career
Bring your energy to myMincome

Vacancies:

- > 2nd line IT Service Desk Support Analyst
- > Senior Python Developer – Finance
- > Controls & Integration Engineer
- > Front-End Developer - Strong JavaScript
- > IT Support Analyst / Engineer (With C# / Scripting)

We'd like to hear from you if you have either:

- Commercial experience with either React or AngularJS
- OR have knowledge of IT Service Desk, Finance, Integration, DB
- AND/OR have a strong knowledge of JavaScript with a combination of the tools listed below

It would be cool if you've had experience in the following, but it's not essential:

- Vue, Parcel, Yarn, Elm, Web Assembly

Here are some of the tools you will learn to get the job done:

- React / React Native
- AngularJS
- JavaScript (ES6)
- CSS3 and CSS preprocessors (Less or Sass)
- HTML5
- AWS
- JavaScript build tools (Webpack, Grunt, Gulp, Yarn, NPM).
- TDD / BDD (Cypress, Selenium, Jest, Enzyme, Mocha, Chai, Typemoq)
- PHP (+Symfony)
- Python

Why work at myMincome?

We work in a highly agile environment with continuous releases and a large focus on testing (Unit, integration, UI testing).

We give our Software Engineers the freedom and trust to find and experiment with the best tools for the job, so that problems aren't just solved but solved in the most optimal way.

You'd be joining an impressive community where you can make your ideas heard. We want you to be empowered to discover new things and to experiment - to help you do this:

- We hold a fortnightly "Front End Community of Practice" within myMincome to discuss challenges we are facing, new frameworks and show-and-tell personal projects.
- Tech time: 'lightning' talks on interesting tech topics. Recent discussions have included using Parcel in projects, looking at styled components vs CSS Modules
- Across slack channels and via internal meet-ups we promote collaboration, knowledge transferring and if something isn't working: 'fail fast' so that we can share learning from our mistakes across all our teams - giving us much more time to work on the cool stuff.
- We attend a number of tech conferences then summarise the agenda to discuss new ideas internally and learnt from them.
- We love to pair program.
- Flexible Working Hours
- 25 days' holiday & day off on your birthday
- Open plan offices with videos games & table tennis
- Free breakfast every day and lunch on Fridays
- Lots of social events
- Training budget
- Matched volunteering and matched fundraising
- Workplace is Basel, Hong Kong or Homeoffice.

If a role could be of interest, please apply today with an up to date version of your CV. Please give us your salary expectations, your preferred Job Location and send us an email to support@mymincome.com
